Portfolio: https://dmo17.github.io/DAHIR-PORTFOLIO/

Recent graduate in full stack development from the University of Birmingham. I am eager to learn new skills at every opportunity and enjoy challenging environments; allowing me to grow in knowledge as a coder and as an employee. I am an Innovative problem-solver who is passionate about developing full stack applications with a focus on backend operations involving data structure and creating Restful Api's. Strengths in creativity, teamwork, and building projects from ideation to execution.

View code: **https://github.com/DMO17/Model-View-Controller-Tech-Blog**
View deployed: **https://tech-blogs-m-v-c.herokuapp.com/**
FULL STACK APP: **HANDLEBARS | NOSQL | NODEJS | EXPRESS**
- This app is structured using the **MVC software design pattern**
- Performed all the **CRUD** operation on the **NOSQL** blog data using a **RESTFUL API**

SOUND ART SMART: ART FINDER APP
View code: **https://github.com/DMO17/sound-art-smart**
View deployed: **https://gingus55.github.io/sound-art-smart/**
FRONT-END APP: JAVASCRIPT | JQUERY | CSS | BOOTSTAP | WEB API
- A quick visual questionnaire to discover artworks based on your interests

TEAM PROFILE: PROFILE GENRATOR
View code: **https://github.com/DMO17/team-profile-generator**
BACKEND APP: NODEJS | EXPRESS | INQUIRER
- This is a Noje.Js command line application that allows the user to dynamically create a HTML team profile Webpage that acquires information about employees on a software engineering team

EXPERIENCE

Fundraiser | Home fundraising   2018-2019 BIRMINGHAM

During my time at home fundraising, I was able to increase my communication skills greatly as well as my confidence in approaching random civilians on the streets. I exercised courtesy and professionalism to all the potential donors regardless of attitude. I was able to adapt my speech to a slower tone when interviewing the elderly and was able to provide the correct information when interviewee's side tracked off script. Consequently, improving my fundraising skills.

EDUCATION

Certificate, Full Stack Web Development – University of Birmingham
BCs(hons) Mechanical Engineering – Coventry University
